

NORTH HILLS ART CENTER

OPEN POTTERY GUIDELINES

1. To participate in Open Pottery Studio, you must be at least 18 years old and have taken a pottery class (not a workshop) at the North Hills Art Center within the last 5 years. Studio is open to working participants only. No observers.
2. Please make sure your membership status is current to take advantage of the discounts on studio time, clay and firings. Please bring your card to verify membership.
3. Payment is due the night of the session when you enter: check, cash or credit card. Pre-payment for multiple sessions is not accepted.
4. This is a heavily used community studio: please be considerate and clean up all tables, tools, wheels and floor where you were working. (If not, you may be assessed a cleaning fee). Tools are to be put back in their respective storage areas.
5. No clay or clay water goes in the sink. After cleaning tools, wheels and hands in water bowl, dump water in buckets on the floor. You may be asked to help dump buckets out back.
6. Place pottery on the proper shelves and place a name on work.
7. This is an open studio; the monitor is not required to instruct but may remind you of proper technique and clean up procedures.
8. The open studio fee covers your working time in the studio and the bisque firing. If you bring items made elsewhere, there are fees for bisque and glaze firings. Refer to the [Open Pottery Fee Schedule](#).
9. All pieces glazed in the studio are weighed and charged a fee even if the potter fires them outside the studio. Refer to the [Open Pottery Fee Schedule](#).

The North Hills Art Center reserves the right to amend these rules at any time.
